The request, filed 7/19/02, for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/311,890 is acceptable and a CPA has been established. An action on the CPA follows.

Applicants' arguments, filed 7/19/02, have been fully considered but they are not deemed to be persuasive. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

PRIOR ART REJECTIONS:

The following is a quotation of 35 U.S.C. § 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. § 103, the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 C.F.R. § 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of potential 35

U.S.C. § 102(f) or (g) prior art under 35 U.S.C. § 103(a).

Claims 1-6, 8-14, 16-18, 40, and 42-44 are rejected under 35 U.S.C. § 103(a) as being unpatentable over Hemstreet, III et al. (P/N 5,733,721); taken in view of Sutherland et al. (P/N 4,818,710).

This rejection is reiterated from the previous office action, mailed 3/26/02, as still be applicable due to the light guide in Sutherland et al. cites an oil assemble which is deemed a light guide as instantly claimed.

Claims 1-14, 16-18, and 29-44 are rejected under 35 U.S.C. § 103(a) as being unpatentable over Hemstreet, III et al. (P/N 5,733,721); taken in view of Sutherland et al. (P/N 4,818,710); taken further in view of either of Balch (P/N 6,083,763) or In re Venner (120 USPQ 193); all before taken in view of Rutenberg et al. (P/N 5,287,272) for barcode practice.

This rejection is reiterated from the previous office action, mailed 3/26/02, as still be applicable due to the light guide in Sutherland et al. cites an oil assemble which is deemed a light guide as instantly claimed.

No claim is allowed.
